

THE ENDEAVOR

LIGHT SIGNALING SYSTEM

Clinics • Surgery • Outpatient

Integrated Communication Solutions

By West-Com Nurse Call Systems, Inc.

The West-Call® Endeavor is a multi-purpose tone-visual communications system designed to address a variety of healthcare communication concerns. Whether you are a clinic, nursing home or a hospital, the Endeavor is the solution. Its flexibility allows every facility to customize a system to meet their specific needs, without the cost that is usually associated with the word “custom.” The Endeavor is truly a dynamic system that can change as you change. At the heart of the Endeavor are sophisticated micro-controllers that are programmable and may be re-programmed either onsite or remotely, without having to replace any parts. Interface the Endeavor with radio paging, and staff members will instantly know when and where they are needed. It can be a stand-alone system for a small clinic, or it could be fully integrated into a complex communication system in a large hospital. With the Endeavor, it’s up to you.

Features

- Patient Call
- Open Door
- Patient Ready
- Results Ready
- Patient Waiting
- Chart Ready
- Assistance Needed
- Clean Room Notification
- In Room Timer
- Automatically Guides Doctor to Next Patient Waiting

Fully Expanded Endeavor System

- Supports from 1 up to 4,064 lights, switches, buttons or other input devices.
- Each device may be assigned to one of seven different call rates.
- Able to receive calls and alarms from other systems through a serial port connection.
- Priority Call Muting capability is available on all central annunciator panels.
- Up to 1,016 duty stations or zone lights may be used.
- Includes 127 on-board relays to provide fault indication or to trigger other devices such as video cameras or door latches.
- Supports scheduling features for up to eight groups.
- Supports paging capabilities for each input device.
- Includes a 10Base-T network connection to interface with the West-Call® Odyssey Plus, West-Call® CDT (Call Display Terminal), West-Call® RMS (Remote Maintenance Service), West-Call® TQI for Endeavor, West-Call® Paging Server, West-Call® Infrared Server, or other custom interfaces.
- Recognizes system faults and can report them to the West-Call® CDT.
- Able to report any call type to the West-Call® CDT.
- Capable of producing productivity and usage reports.
- Able to remotely program or re-program the systems I/O boards.

#	ROOM / AREA	CALL TYPE	TIMER
1	Hold 2	Staff Emerg	00:09
2	Exam 2	Normal	01:04
3	Exam 7	Clean RM	00:42

SYSTEM | MUTE | ETH | 10:53.22

The Endeavor is capable of displaying calls on a flat panel monitor when interfaced with the West-Call® CDT.
