FCWeb Suite

The FocusCare® Web Suite provides web based (browser) access to the information stored in the nurse call system. Virtually any information manageable through the FocusCare® master user interface, or other methods, can be viewed or updated through the FCWeb Suite. The FCWeb Suite additionally allows access to the wireless messaging system integrated with the nurse call system. Security protocols allow for restricting access to individual functions based on user id/password profiles. Access to these functions can be made available to any user who has browser access to this application, at the facility's discretion. FocusCare® Web Suite can also be used in the virtual clinic system.

The following sections are available from within the FCWeb Suite:

- ▶ Patient/Bed (view, add, update delete)
- ▶ Equipment (view, add, update, delete)
- ▶ Staff (view, add, update, delete)
- ▶ Messaging (select recipients based on name, device, role, etc.)
- ▶ Housekeeping (view availability/status of beds)

VERSIONS AND MODEL NUMBERS:

DESCRIPTION	MODEL NO.
Allows web access to staff assignment, patient information, housekeeping data, basic equipment location and text messaging (i-Page)	FCWeb Suite

- For use with all West-Call® product lines running FocusCare software
- For minimum PC requirements, please refer to DPC-4 or RPC-2 data sheet
